

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings of claims in the application:

LISTING OF CLAIMS:

1 Claims 13-25 (Canceled).

1 1. (Original) A moulded foamed article having a core and an outer integral
2 elastomeric skin, the core comprising a foamed material, the skin contributing to the article
3 hardness, as measured using an hemispherical indenter, by no more than 25%, preferably 20%,
4 more preferably 16%, advantageously 12%.

1 2. (Original) A moulded foamed article having a core and an outer integral
2 elastomeric skin, the core comprising a foamed material, the elastomeric skin having a thickness
3 from about 0.1 to about 1 mm, preferably 0.3 to 0.8 mm, most preferably 0.4 to 0.6 mm, and
4 having a tensile strength from about 2000 to about 12000 kPa, preferably from about 3000 to
5 about 10000 kPa.

1 3. (Original) A moulded foamed article having a core and an outer integral
2 elastomeric skin, the core comprising at least two materials, one being a foamed material.

1 4. The article of claim 1, comprising a viscoelastic foam core or a resilient
2 foam core or both.

1 5. (Original) The article of claim 2, comprising a viscoelastic foam core or a
2 resilient foam core or both.

1 6. (Original) The article of claim 3, comprising a viscoelastic foam core or a
2 resilient foam core or both.

1 7. (Original) The article of claim 1, further comprising a gel layer
2 immediately adjacent to the elastomeric skin.

1 8. (Original) The article of claim 2, further comprising a gel layer
2 immediately adjacent to the elastomeric skin.

1 9. (Original) The article of claim 3, further comprising a gel layer
2 immediately adjacent to the elastomeric skin.

1 10. (Original) The article of claim 1, in which the elastomeric skin and
2 foamed material are comprised of polyurethanes or derivatives thereof.

1 11. (Original) The article of claim 2, in which the elastomeric skin and
2 foamed material are comprised of polyurethanes or derivatives thereof.

1 12. (Original) The article of claim 3, in which the elastomeric skin and
2 foamed material are comprised of polyurethanes or derivatives thereof.
